

To anyone with a **PEST PROBLEM**

**I am pleased** to recommend **Jerry Furnell** to anyone who has a pest problem. I have used Jerry to inspect and then treat my home for termites.

Why did I choose Jerry?

When Jerry first came around he wasn't hustling for work, other pest controllers came said nothing gave a QUOTE wanted to get started tomorrow and said goodbye.

Being my first home I was a little puzzled with their attitude. However Jerry came along and took the puzzle away, **he took the time to explain everything to me** with more than one option to choose from depending on my budget. Which relieved the tension others had built (and did not offer).

I have the highest regard for Jerry his Honesty Integrity and his workmanship are second to none.

Please call if you wish.

Will Kelleher
